BERG Coda

Experience perhaps the world's best seating comfort when BERG Coda adapts to YOU and not the other way around. The chair can be adapted to individual needs and ensures optimal recovery.

The specially developed mechanism ensures maximum relief for body and lower back. Coda's built-in footstool allows you to sit actively, or rest, in an almost extended position.

The height and side-adjustable neck pillow, together with the patented foam in the chair, confirm that the BERG Coda is a class in itself.

Combine solid walnut or oak with the hand-polished aluminum armrests and the exclusive leather - or choose a timeless look with the upholstered side panels.

Walnut

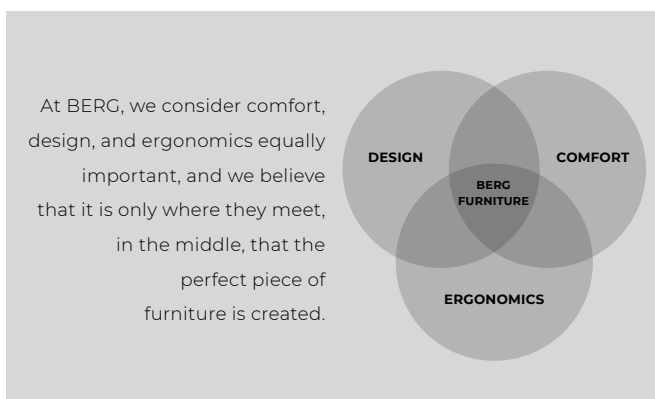

Leather

Oak natural

Oiled oak
